Table 6: **Landslide hazard categories**

Susceptibility classes	Average landslide hazard rate $m^2/year/km^2$
0-10% (highest susceptibility)	365
> 10- 30%	90
> 30-60%	18
> 60-100%	1

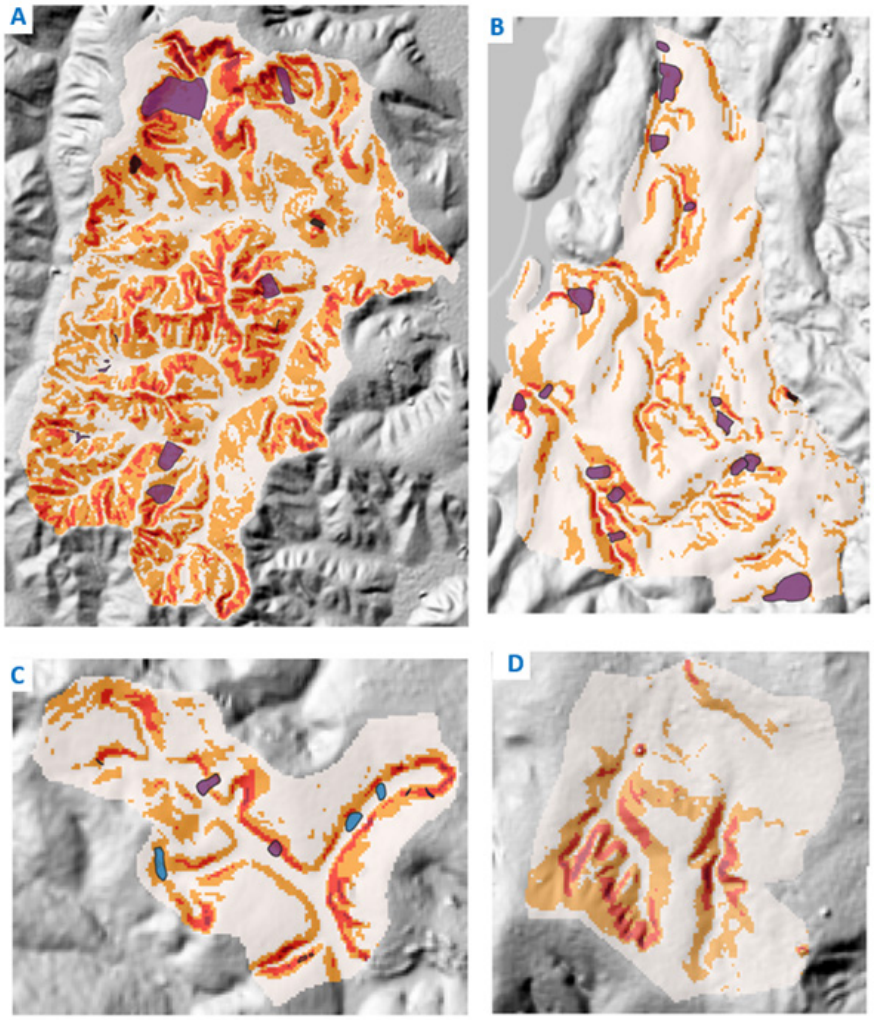

Figure 8: *Landslide hazard maps (purple and blue areas are inventoried landslides)*

A - Bishenyi
B - Rusizi
C - Rwabayanga
D - Rwandex Magerwa
